

BENEFITS-ENROLLMENT COMMUNICATIONS

CASE STUDY REPORT SUMMARY

2018 RESULTS
100+ CAMPAIGNS
250,000+ EMPLOYEES

SPOILER ALERT

Fлимп digital postcard campaigns generate an
AVERAGE ENGAGEMENT RATE OF 74%

This summary report presents **aggregate employee engagement** and **response statistics** from more than 100 digital postcard communications campaigns used for 2019 annual benefits enrollment during 2018.

The positive results strongly validate the **effectiveness of branded interactive video** and **multimedia communications** that are “pushed” to targeted workforce audiences via internal email for online employee benefits education and enrollment.

The use of dynamic, on-demand digital content—such as videos and digital postcards that **track and measure viewer engagement** and response behavior—**saves HR teams time and money** by reducing the need for in-person meetings, travel and costly printed benefits guides and communications.
